Professional Design Experience:

Project Manager and Senior Interior Designer responsible for client project launching, calculation of design fees and contracts issue. Project manager and senior designer directly responsible for client programming, project design, project management and installation which included management of procurement costing and construction project documents issued to clients, general contractors and vendors.

Project design responsibilities included space planning, interior/exterior architectural detailing and furnishings/finishes selection. Further project design development included concept designs for custom furnishings and built-in millwork. All designs communicated via AutoCAD, Google SketchUp, hand illustration sketching and markers.

Primary projects focus in the areas of senior residential communities, commercial interiors, home builder design centers, sales & marketing environments, exhibits, environmental signage and themed environmental hardscaping.
